Xcelrate UDI Announces the Launch of IFUVitals: Revolutionizing IFU Access in Healthcare

[National Harbor, MD] – [November 27, 2023] – Xcelrate UDI, a leader in healthcare technology solutions, is proud to announce the launch of IFUVitals, a groundbreaking tool designed to revolutionize the way healthcare providers access Instructions for Use (IFU) for medical devices. Leveraging the power of the Unique Device Identification (UDI) system, IFUVitals ensures accurate association and retrieval of IFUs in less than three seconds, marking a significant advancement in patient safety and care efficiency.

IFUVitals comes at a crucial time when the healthcare industry is seeking more efficient and reliable methods to access critical device and reprocessing information from the manufacturers current IFU. Strengthened by the regulations from the FDA's UDI Unique Device Identification (GUDID) and European Union's Medical Device Regulation (MDR), IFUVitals aligns with global standards, offering a solution that is both innovative and compliant.

Key Features of IFUVitals:

- **Rapid Access:** IFUVitals enables healthcare professionals to access the most current IFU for any medical device in **under three seconds**.
- **Accuracy and Compliance:** By integrating with the UDI system, IFUVitals guarantees the accuracy of IFU associated, ensuring compliance with the most stringent regulations including Joint Commission.
- **Enhanced Patient Safety:** Immediate access to the correct IFU minimizes risks associated with outdated or incorrect device IFUs.
- **User Assurance:** AI Enhanced to access the exact section of the IFU without searching for your topic.

"IFUVitals is more than just a tool; it's a commitment to enhancing patient care through technology," said Heather Thomas, Business Development Manager at Xcelrate UDI. "By ensuring that healthcare providers have instant access to current IFU information, we are taking a significant step towards reducing errors and improving outcomes and reducing hospital acquired infections (HAI)."

The development of IFUVitals is a testament to Xcelrate UDI's dedication to innovation in healthcare. With its intuitive design and seamless integration, IFUVitals is poised to become an essential resource for healthcare providers, enhancing the quality of care delivered to patients across the globe.

Xcelrate UDI invites healthcare professionals and industry partners to learn more about IFUVitals and its benefits at XcelrateUDI.com/IFUVitals.

About Xcelrate UDI: Xcelrate UDI is a leading provider of healthcare technology solutions, specializing in the utilization of the UDI system to enhance patient safety and documentation and supply chain efficiencies. With a focus on innovation and compliance, Xcelrate UDI is committed to developing solutions that meet the evolving needs of the healthcare industry.
